CLIENT WORK — FREELANCE

Freelance Full Stack Developer

2024 – Present

3 live production sites shipped for paying clients across 3 industries

- **Honesty Associates** — marketing and lead-generation site for a Mumbai real estate consultancy operating since 1992, covering residential and commercial rental advisory. [Live site](#)
- **HF Doc Consultancy Services** — live site for a government document assistance consultancy handling passport, PAN, and ration card applications. [Live site](#)
- **Tripsbag** — headless e-commerce storefront for a bag retail client, built with Next.js and the Shopify Storefront API for catalog, cart, and checkout; product photography and pricing are being finalized by the client post-launch. [Live site](#) | [Source](#)

INDEPENDENT PROJECTS

Foodeli — Food Ordering Platform

2024 – 2025

Next.js, Node.js, Sanboxed Payments

- Built a full food-ordering platform with a complete browse-to-checkout flow and a sandboxed payment step, for a final-year engineering student's academic project submission at another college. [Live site](#)

ZenEx — Real-Time Crypto Exchange Platform

2025 – Present

Node.js, TypeScript, WebSockets, Redis Pub/Sub, TradingView, Express

- Built a real-time order book synchronization engine and live price-streaming pipeline using WebSockets and Redis Pub/Sub.
- Integrated TradingView charting for market visualization; deployed a working demo and public repo. [Live demo](#) | [Source](#)

Multi-Chain Web3 Wallet

2024 – 2025

Next.js, React, TypeScript, Ethereum, Bitcoin, Solana, Polygon

- Built a self-custody wallet supporting 4 blockchains (Ethereum, Bitcoin, Solana, Polygon) from a single interface, implementing hierarchical key derivation and cross-chain transaction signing. [Live demo](#)

AdSaathi — AI Ad-Management SaaS

2025 – Present (Building)

TypeScript, React, Vite, Tailwind v4, Bun, Express

- Building an AI-powered platform that lets Indian SME owners run Meta ad campaigns directly, without hiring an agency or learning Ads Manager, integrating the Meta Marketing API for campaign creation and management.

Local RAG Document Assistant

2025 – Present

FastAPI, LangChain, ChromaDB, Ollama (Phi-3 Mini, Nomic Embed Text), Next.js

- Built a document Q&A assistant that runs entirely on local infrastructure — no API keys, no cloud calls — for businesses that can't send sensitive documents to a third-party AI model. PDFs are chunked, embedded, and stored in a local vector store; answers are grounded only in retrieved content, with an honest “not found” response instead of guessing. [Source](#)
